

Dimension of Law and Order

One of the most challenging assignments Executive Magistrates are faced with is tackling law and order situations. Training institutions have always faced difficulty in providing standard advice to new recruits on this subject because of the paucity of relevant and rich experience combined with the ability to translate it into concepts for the class-room among the faculty.

Accordingly this monograph has been developed containing different papers written by officers who have faced such law and order situation at first hand. This monograph also contains eighteen Case Studies based on real experiences so that the trainees can analyze their roles vis-à-vis other officers including police in dealing with law and order situation.

The papers are detailed below:-

1. Use of force for Maintenance of Law & Order
2. Law and Order
3. Dispersal of Assemblies by Magistrates
4. Law & Order Situation arising out of Strikes in Public Utility Services
5. Student Violence
6. Agrarian Unrest
7. Labour Agitation
